

Becca Kile, MS

Becca graduated in 2015 from California Polytechnic State University, San Luis Obispo where she received a Bachelor's degree in Animal Science with an emphasis in poultry production and pre-veterinarian medicine. Then she received her Master's degree in Biomedical Sciences, specializing in assisted reproductive technologies from Colorado State University, Fort Collins in 2016. Before joining CCRM, Becca completed an internship at Boston IVF in Waltham, MA where she worked on developing a protocol for the cryopreservation of oligospermic semen using low volumes in order to facilitate it's preparation for in vitro fertilization. At CCRM, as the Media Assurance Quality Coordinator, Becca produces the in-house culture media for clinical use and completes the subsequent QC testing. She is also investigating the interaction of exogenous lipid supplementation and maternal BMI and how they affect embryo survival in long term culture.
