

Deirdre Logsdon, MS

Deirdre graduated from the University of Colorado at Boulder in 2011 with a Bachelor's degree in Molecular, Cellular, and Developmental Biology. After two years as a high school Science teacher and four years as a clinical andrologist, she went back to school for her M.S. in Biomedical Sciences with an emphasis in Assisted Reproductive Technologies from Colorado State University. Her main research focuses include optimizing post-implantation embryonic [extended](#) culture, investigating trophoctoderm differentiation and epiblast development in vitro, [and](#) optimizing culture media for clinical application. When Deirdre is not at work she enjoys spending time with her husband, kids, and their wiener dog.
