

Heidi Reynolds

Heidi Reynolds received her bachelor's degree in biological science from Colorado State University in 2017. After having donated her own eggs at CCRM she found a passion in the reproductive field and went back to school to earn a master's degree in biomedical science with an emphasis in assisted reproductive technologies. Her primary research at CCRM includes supplementation studies to improve embryonic development as well as the study and integration of extracellular vesicles into IVF and IVM research for patients with PCOS.
